

**SALT LAKE AREA TRANSCOM  
TECHNICAL ADVISORY COMMITTEE (TAC)**

**January 29, 2014  
10:00 am – 11:30 am, West Valley Cultural Center  
MEETING SUMMARY**

AGENDA ITEM	DISCUSSION	ACTION
<b>1. Meeting Summary</b>	Summary of the October 30, 2013 Trans Com TAC meeting was presented for approval.	Approved
<b>2. TIP Business</b>	<p><u>Review List of Project Evaluation Concept Reports Received</u> – Ben Wuthrich of WFRC distributed a list of project evaluation concept reports that were submitted for evaluation and consideration. Ben encouraged Committee members to verify that their projects are included accurately on the list. It was pointed out that the UDOT ITS project was counted twice (14300 South &amp; Foothill). UTA mentioned that the STP application for the DDSC project was missing. There is also a project on 900 East that was not shown.</p> <p><u>Schedule for the 2015-2020 TIP Process</u> – At the February meeting Ben will present a “virtual tour” slide show to review the proposed projects. In March the Committee will review the project evaluations and make recommendations for project funding. The recommendation will be presented to Trans Com in July.</p>	Information  Information
<b>3. UTA Expansion Report</b>	<p>Matt Sibil of UTA reported on the funding priorities for UTA. The 2020 Strategy is to fill in the rail backbone with transit oriented development, station access and alternative fuel vehicles.</p> <p>Another strategy for improving transit and air quality is the construction of the new existing Central garage. The current site is 7.5 acres, while the new location will be more than 13 acres. It is believed that the new facility will save in fuel costs by a large investment of CNG buses and other alternative fuels in the future rather than diesel. The new facility will save in annual operating, maintenance, and utility costs, and will accommodate 150 buses, with future expansion to 250 buses.</p> <p>Total cost is estimated at \$57M.</p> <p>UTA plans to expand the vanpool operation as shuttles to the rail stations for state employees. UTA is requesting a 3-year commitment of CMAQ funds for UTA Rideshare rather than an annual request for funds.</p>	Information
<b>4. 1300 South Viaduct Project</b>	Jeff Snelling and Lynn Jarman reported on the 1300 South viaduct rehabilitation project which runs from 500 West to 700 West spanning the UP and UTA rail lines. It is one of only a few east/west grade separated crossings of the rail lines. This project is funded with Surface Transportation Program (STP) funds and is scheduled to be advertised this year and take 15 months to complete. The existing foundation is sound, but the deck will be replaced with additional facilitations for pedestrian and bicycle lanes on both sides.	Information
<b>5. UCATS Report</b>	Johanna Jamison of UTA reported on the Utah Collaborative Active Transportation Study (UCATS) that was recently completed. The study was in a response to Utahans along the Wasatch Front calling for more options for Active Transportation (walking and biking). The goal was to develop a regional alternative transportation resource master plan for infrastructure that enhances and coordinates pedestrian and bicycle connectivity. Johanna reviewed the benefits of UCATS which include environmental, congestion, and health benefits. For more information see <a href="http://ucatsplan.com">ucatsplan.com</a> .	Information
<b>6. Other Business</b>	Thanks to Midvale City for providing today’s refreshments.	Information
<b>9. Next Meeting</b>	The next meeting will be February 26, 2014. Refreshments will be courtesy of Murray City.	Information
