

A. ADOPTED GOALS/MEASURES FOR RTP SCENARIO EVALUATION

RTP GOALS							MEASURE OF SYSTEM/ SCENARIO PERFORMANCE
Mobility & Accessibility	State of Good Repair	Economic Vitality	Cost Efficiency	Urban Form and Community	Health, Safety and Security	Environmental Sustainability	
							1 Travel time
							2 Travel delay from traffic congestion
							3 Miles traveled by car
							4 Transit use
							5 Access to emp & educational opportunities (time separating consumers from major destinations)
							6 Infrastructure construction costs: roads, transit, sewer, water, etc.
							7 Freight movement time and congestion
							8 Economic revitalization and growth through infill/ redevelopment
							9 Cost of living: both Housing+transportation expenses
							10 Transportation costs per user
							11 Extent to which existing roads and transit are being optimally utilized
							12 Community Impacts such as to parks, disadvantaged communities, properties, & places of worship
							13 Expansion of the urban area footprint
							14 Growth in centers and walkable communities
							15 Air quality
							16 Crashes
							17 Active transportation: walking and cycling
							18 Energy use by transportation and by buildings
							19 Natural resource land impacts
