### **SALT LAKE AND OGDEN/ LAYTON URBAN AREA**

#### **Locally Funded Projects**

---

Davis County  
Salt Lake County  
Weber County

Local government agencies have a variety of funding sources available to them for transportation improvements. The primary source is from the general fund of the cities and counties. These general funds can be used for construction of new roads or the upgrading or maintenance of existing ones. Transportation projects, however, must compete with the other needs of the city or county for the use of these funds.
